Academic Affairs

Hyflex Summer Pilot

This summer, six faculty members across multiple disciplines will run a pilot testing the use of 360-degree cameras in the classroom. Using this technology will allow faculty to host students in the classroom and live online at the same time. The pilot will look for opportunities to leverage the technology to serve students with access service’s needs, scheduling or daycare issues, and other barriers to learning. Additionally, the pilot will begin using a traditional hybrid model with hopes of transitioning some courses (where appropriate) to a hyflex model where students can choose how to attend on a class-by-class basis.

Business, Legal, and Information Systems

Culinary Arts

This semester the ICC Culinary Arts program is featuring Curbside To-Go Lunches at the Culinary Institute featuring choose-your-own-adventure style sandwiches, wraps, and salads. They will be open each Thursday from 11:00am - 12:15pm for pick up in Parking Lot 5 outside of Dogwood Hall on the Peoria Campus. Choose your lunch and place your order at iccculinary.org. Get your orders in early each week before they fill up!

Paralegal

Illinois Central College has had a Paralegal program since 1989. We currently have two programs, an Associate in Applied Science program and a Post Degree Certificate program for students who have already earned a college degree. These programs have produced and placed graduates in positions working with lawyers in law offices, government agencies, and corporations throughout our region and the United States.

Chances are that anyone receiving legal services from a lawyer in our region is also being served by an ICC Paralegal graduate.

The program first earned American Bar Association approval status in 1992 and we have maintained this status through 6 cycles of a very in-depth program review process since 1992.

The American Bar Association site team visited our campus over two days in February of 2020. In their exit interview, the site team reported to Dr. Quirk-Bailey and Mr. Budde that they would be recommending the program be reapproved and they noted how impressed they were with our curriculum, our facilities, our students, our advisory board, and our faculty.
COVID-19 delayed the next two steps of the ABA approval process, a review by the Standing Committee on Paralegals and a vote of approval by the House of Delegates of the American Bar Association. The House of Delegates voted to extend our American Bar Association approval status this past month.

The Illinois Central College Paralegal Programs will retain full-approval status through 2026.

**Math, Science, and Engineering**

**Student Work to Share**

Professor Kristin Jacobson-Flex's Biology 113, Conservation and Society, class was assigned to research and give a presentation on a Person of Influence in Conservation. Students were given some basic guidelines of information to include in their presentation and asked to be creative.

Professor Jacobson-Flex's goal of the assignment was to "get the students to make connections with the foundational people in this (conservation) field.” This presentation is from Cosette Leman on Aldo Leopold.

**Agricultural and Industrial Technologies**

**FFA Ag Mechanics and Horticulture CDE Event**

The annual FFA Ag Mechanics and Horticulture CDE (Career Development) Event was held on Thursday April 15. Forty students from seven area high schools competed. Individual contest areas were hosted by the following ICC programs: Agriculture, Diesel Powered Equipment Technology, Welding, Horticulture, and Industrial Electronics. Putnam county was the winning team for section five. Virginia was the winner in section 12. This event has traditionally been a great recruiting tool for all of our programs.
Even though our numbers were lower this year due to the Covid-19 pandemic, the contest was still a worthwhile event. The high school instructors and students in attendance were thankful for the opportunity to compete.

**Student Success**

**Advising**

For the last 3-4 years, the Advising Department has completed the concierge project for fall and spring semester. The administrative assistant runs the report for the Director of Advisement and then divides the list up between the advisors. The advisors evaluate each student, dividing them into three categories:

- those who have all the credits they need to graduate
- those who need 3 or less courses to complete their degree
- those who need more than 3 courses towards completion

This project has been effective in identifying between 50-100 students each semester that are eligible to graduate. Advisors reach out to those students who need three or less courses to complete their degree, encouraging them to enroll in courses or transfer course(s) back to ICC to complete their degree.

Here were the results from Fall 2020 for those students who had all the credits they required, and were then processed as graduates:

Athletics

Current Update of ICC Spring 2021 Sports Season:

Women’s Volleyball
- 4th place finish at the NJCAA Division II National Tournament
- Finished the year with 22 wins and 3 losses
- District Champions (tournament hosted at ICC)
- Earned number one seed in the National Tournament
- Ranked number one in the National polls the last month of the season
- Head coach, Tracy Heffren was named Region 24 Coach of the Year

Women’s Basketball
- Currently at the NJCAA Division II National Tournament in Hickory, NC
- Earned an “at-large” bid when Region 4 District Champion, Morton College had to pull out of the tournament
- Currently at 18 wins and 3 losses
- Hosted the District tournament as the #2 seed, losing to Parkland in the championship game
- Have been nationally ranked all season, reaching as high as #3 in the polls
- Currently have the #8 seed at the National Tournament, playing the #9 seed, Pima (AZ) on Tuesday, April 20 at 8 p.m. (CST)
- Head coach Karrie Redeker was named Region 24 Coach of the Year

Men’s Soccer
- Currently ranked #18 in the NJAA Division II polls
- Recently defeated the #14 seed Lewis and Clark (2-0), and again in double overtime at ICC (3-2), to take the season series and earn the #1 seed for the region tournament
- Current record at 5 wins and 2 losses on the season

Women’s Soccer
- Recently beat Wabash Vallet in overtime (3-2)
- Current record of 3 wins and 3 losses

Women’s Softball
- Currently ranked #26 in the NJCAA Division II polls
- Recently swept College of DuPage at home
- Current record of 9 wins and 13 losses

Men’s Baseball
- Recently swept Lewis and Clark on the road
- Current record of 14 wins and 20 losses
Enrollment Services

Enrollment Services has been busy working on various projects to support our students as well as to help streamline processes for them. Here are some of the projects that have been completed and a few that are still being worked on:

- Recently implemented an electronic workflow for all Financial Aid processes. This new process allows for all students to continue to upload documents electronically and back off to review immediately.
- The shopping cart for Fall 2021 is now open and students are starting to move courses into the cart in order to be ready for enrollment on May 3, 2021.
- Student Financial Services and Financial Aid have assisted with the disbursement of HERF II funds by providing guidance for student support, emailing students, and disbursing funds.
- Registrar’s Office has finalized Spring 2021 graduates and sent the list of students to the Marketing Department for the printed program as well as the online publication.
- Registrar’s Office is working with Early College and Academic Services on processes for program plans and degrees awarded.
- Enrollment Services continues to work with Enterprise Systems on projects that streamline service and efficiencies for students.
- Enrollment Services, along with IR and Admissions, are working on a student resource intake survey for all current and prospective students. The information collected will be distributed to support services to assist students as well as help ICC determine what additional services are needed for students to be successful.

Testing

Placement testing is going well at Illinois Central College. Since July 2020, there have been 3,456 placement tests administered between the East Peoria and Peoria campuses. CASAS Testing, a type of placement test for the Workforce Equity Initiative and our Adult Education/GED program, has also been administered.

Since the end of January, the testing staff have been busy visiting high schools in our district, administering placement tests to seniors, dual credit students, and early college students. There have been 2,293 placement tests administered at the high schools so far, with six more dates to go this semester.

Testing is offering students multiple ways to take their placement tests if unable to come to campus:
- Testing will proctor the test by using Zoom
- Examity will proctor the test for ICC (Examity is a service that provides proctors 24 hours day/7 days a week)

Testing is planning to continue using these options when back to campus, also allowing students who live in another state or country or want to test on the weekend to have choices.
Pearson Vue and Scranton testing continue to be held at the Peoria campus, while PSI testing remains at the East Peoria campus location only. Since July, Peoria has administered 443 Pearson Vue exams, and 56 Scantron exams, while East Peoria has administered 233 PSI exams. The plan is to have both campuses administering all three exams again beginning the Fall semester of 2021.

Testing continues to administer both the ACT and SAT exams on the national testing day for our area students. For now, the capacity is limited to 50 students due to COVID-19 restrictions. Once back to normal, the hope is to be back to the capacity of 200 students that we once had. Within seven test dates for the ACT/SAT exams, testing has administered a combined total of 385 exams.

Faculty continue to request help with make-up exams, and testing is glad to help. The numbers are not where they would normally be for make-up exams, but testing is hoping to see these numbers change come Fall 2021 semester.

**Student Life**

Student Life has continued to work hard to keep the students involved and engaged.

April 1: The SGA (Student Government Association) held the Student Trustee and SGA Executive Board Elections.
   - The 2021-22 Student Trustee is Raena Holloway.
   - The 2021-22 executive board is as follows:
     - Emily King, President
     - Emily VanBruwaene, Vice-President
     - Micah Schultz, Treasurer

April 10: PBL (Phi Beta Lambda) virtually participated in the SLC (State Leadership Conference). Members placed in the following SLC events:
   - Financial Concepts 1st place: Jacob Miller, ICC
   - Personal Finance 1st place: Jacob Miller, ICC
   - Programming Concepts 1st place: Christiana Beard, ICC
   - Statistical Analysis 1st place: Christiana Beard, ICC
   - Business Ethics 2nd place: Austin Scalzitti, ICC
   - Public Speaking* 3rd place: Raena Holloway, ICC
   - Sports Management & Marketing* 3rd place: Jacob Miller, ICC
   - This group was also awarded with having the largest chapter membership in the state.

April 24: SKD (Sigma Kappa Delta) held a virtual Poetry Slam competition for all students and faculty members.
Every other Tuesday, PBL (Phi Beta Lambda) has held virtual game nights for students. These game nights consist of playing the game scribbi.io, with an occasional bingo scavenger hunt.

The Ag Business Club/Collegiate Farm Bureau Chapter has been volunteering, weekly, at the Hidden Manna Food Pantry.

**Marketing**

Marketing implemented the **Summer 2021 registration campaign** through various platforms, including targeted digital and web ads, digital entry signs, texts, and multiple emails with personalized messages to segmented audiences.

A large amount of preparation work was completed for the **virtual commencement ceremony**, including ordering contents of, and assembling boxes for the Celebration boxes, sending postcards and emails encouraging registration, ordering regalia, figuring logistics of the drive-thru photo opportunity, and more.

Marketing also completed advertisement of these events: Home Educators Virtual Visit, Virtual College Fair, Student Transfer Days, College for Kids registration, additional GoGuide classes, and more.

**ADMISSIONS**

The Admissions Office finished the **Explore ICC series** in March. Five virtual events were held with over 75 registrations. We continue, however, seeing challenges with students actually attending, even with the support from marketing via emails, texts, social media, signage, and targeted digital ads. You can see more at [icc.edu/explore](http://icc.edu/explore).

Admissions continues to build engagement with new students, taking nearly 600 inbound calls and completing almost 400 outbound calls. We continue implementing TargetX by sending over 1,000 individual emails and SMS messages. We continue seeing more prospect individuals by either in-person or Zoom appointments. Finally, we continue working with high schools and to meet with students via in-person presentations at the school or virtually during Zoom sessions.
MARKETING OUTREACH

**Current Students**
- 10 emails for 65,692 touches
- 2 texts for 4,027 touches

**Prospects**
- 5 emails for 31,687 touches
- 5 texts for 19,287 touches

**Employee Emails**
- 12 emails for 18,000 touches

**Community**
- 3 emails for 12,792 touches

YouTube views continued to trend up as the channel is utilized more for content and virtual events. March views and hours were driven by the helpful video series, ICC Student Government Association video, the ICC Workforce Sustainability Center premiere video, and the ICC 2020 Year in Review video.
The new ICC TikTok account (@illinois_central_college) was a major focus this month. Marketing partnered with Angie Ostaszewski from the Educational Foundation board for an influencer collaboration on her TikTok account. The collaborative video discussed unique opportunities at ICC and received many positive comments. Through this partnership, content will be shared on her account monthly.

**Administration & Finance**

**Human Resources**

- Human Resources and Enterprise Systems updated the PeopleSoft system with the 2021 federal tax table.
- Human Resources began processing stipends for participants in the Quality Matters professional development program. The initial number of stipends process was 55 faculty and staff members.
- Human Resources and Enterprise System is in the process of setting up timekeeping rules for the Motorcycle Rider Safety Program (MSRP) employees.
- The Human Resources division is in the processing of developing and reviewing the FY22 salary budget with managers. In addition, the division has developed its departmental budgets, division plans, and institutional operational plans for FY22.
- Human Resources continues to develop the staff compensation program for implementation in FY22.
- Many human resources staff attended the strategic planning retreat on March 5.
- The Vice President of Academic Affairs search committee hosted its first round of interviews March 8-16.
- Human Resources has implemented a new program for employee recognition gifts. Employees will have the ability to select a gift card from the Tango gift card system.
- Michelle Bugos has been attending virtual department team meeting across campus to congratulate employee award recipients.
- The Chief Information Officer (CIO) search committee had a kickoff meeting March 24.
- Michelle Bugos attended a Business Curriculum Advisory Committee meeting March 25.

**Benefits, Leaves, Risk and Safety**

The Benefits Department continues to monitor COVID-19 issues on campus through Healthcheck 360 and reports of cases. The department is also assisting with communication efforts related to regional vaccination clinics.

Human Resources and Enterprise System staff, led by the Benefits Department, are in the process of implementing the SURS Defined Contribution Plan. This is a mandatory implementation under the SURS retirement programs.
Finance & Business Services

Budget Update

The College’s budgeting process is progressing on the established timeline. Department Budget managers have developed objectives and goals and have requested an allocation of resources that align with the establish goals and strategies. The College uses a bottom-up approach to budgeting and departmental level budgets have been prepared based on general guidelines developed by College administration and now will be reviewed at the Cabinet level and adjusted as necessary. The approach is designed to ensure resources are aligned with strategy and there is clear communication throughout the College in support of the budget development process.

As the pandemic is still having a significant impact on the finances of the College, major assumptions regarding enrollment, State funding, investment returns, facility capacities and the use of HEERF funding are still being evaluated. The College is currently on target with presenting a tentative budget during the June Board of Trustee’s meeting.

Childcare Update

General
- Team met with ATD coaches to discuss outcomes & measures to determine effectiveness for the children, College, and student parents.

Center Re-Opening
- Current staffing plan is developed
- DCFS has been notified of center re-opening and steps to obtain approval
- Hiring has begun

Voucher Program
- Team received schools from ATD coaches to research / benchmark. The team has reviewed the programs of Northeast Wisconsin Technical, Salt Lake Community College, and Central New Mexico.
- Options for voucher amount:
  - $50 / credit per semester with a max of $1,000 for the semester.
  - Flat amount per student or per child.
  - Student co-pay after Child Care Connection funding is applied.

Enhanced Referral Services
- Enhanced Referrals Include:
  - Same day (24 hours) response with technical assistance and childcare referrals for parents
  - Customized data on contract usage on monthly basis
  - Marketing services for services provided by Child Care Connection
  - Onsite presentations / event participation
  - Ability to use CCAP funding for friends, family, and neighbors (background checks & training required)
- Child Care Connection willing to train ICC staff to be able to assist student parents in completing CCAP application.
Facilities Services

**CARES Funding Request**

A list of items that would qualify for CARES funding has been developed. It includes items such as touchless flush valves & faucets, converting push button handicap door access to Wave technology, additional Ionization Units, upgraded air handler filters to CDC recommended MERV 13, converting stair tower door hardware from knob to lever action and bathroom door arm/pull openers, HEPA vacuums, replacements for ORBIO System to a new all-purpose touchless cleaner machines NEW technology, touchless, paper towel dispensers & soap dispensers in bathrooms, and additional electrostatic hand held disinfectant sprayers.

**Ionization Units Installation on Air Handlers**

Currently we have – units installed East Peoria, Edwards Building 5 Air Handlers and Peoria Campus, Cedar, Birch and Arbor South. We quote to provide these systems for the remainder of the East Peoria Campus $235,534 and for the remainder of the Peoria and Pekin Campuses $76,395. This is included in our CARES funding requested list.

**Convert from MERV 8 to CDC Recommended MERV 13 Air Filters**

In the process of the purchase and conversion of all HVAC - air handling units to the new recommended filter. Currently cost is approximately $13,200 annually for the MERV 8 filters. The new MERV 13 filters will cost approximately $23,700 annually (a $10K increase). This is included in our CARES funding requested list.

Educational Foundation

The ICC Educational Foundation’s scholarship selection process is in full swing. Over 150 students have already been awarded scholarships for the 2021-2022 academic year. The remainder of the committees will make their final selections now through June 15. Any remaining scholarships will be posted June 15 on icc.edu for additional applicants.

The Educational Foundation Board of Directors and staff would like to welcome three new members to the Board of Directors: Aaron Kilgore, Craig Habeger and Nick Lavin. Aaron Kilgore joins the Board as an agent/employee of State Farm for over 20 years. Aaron is very active in the community, serving on several boards and committees including the George Washington Carver Community Center Board, Greater Peoria Economic Development Council, Midwest Food Bank Advisory Board, and more. Craig Habeger comes to the Foundation with a diverse background in manufacturing, as a Division Manager at Caterpillar Inc.

Recently, Craig was a contributor to ICC’s grant application for the Manufacturing Academy, in which he provided data and information relevant to our local manufacturing needs and trends. The final new member to the Board is Nick Lavin. Nick is the General Manager of Connor Co., a supplier specializing in plumbing, HVAC, Geothermal and industrial PVF industries. Nick is a graduate of ICC with his associate degree in business. Welcome Aaron, Craig, and Nick.

Save the date:

Mark your calendars for the 2021 Community Celebration on Thursday, October 28. Contact the Foundation offices for more information at foundation@icc.edu. Invitations will be mailed in September.
