Consent Agenda

Chair Davis noted that there was a typo in the personnel report on page 19 with the hire date of Donna Hearn. It should be 03/28/2022 not 03/28/2020. Trustee Thetford noted that person shows as both a new hire and as a separation on the report and it is correct in that she started at ICC and left ICC in the same month. Trustee Thetford stated she had a question on the purchase report regarding the Architectural and Engineering Services for the new agriculture building in the amount of $140,000 which, in her understanding, is just for design work. Moving forward she would like to understand where these types of services fall out for the magnitude of the project. Mr. Budde, Executive Vice President of Administration & Finance / Treasurer, stated that this amount also includes programming. This expenditure was unique in that it was tied to the Workforce Sustainability Center and the pole barn storage facility. The College was trying to leverage an opportunity to create an agricultural teaching facility, so there was a good amount of front-end programming. There was also some urgency to create a shovel-ready project as funding was being sought from the legislature. This work also included work on the location as DKA Design had previously assisted the College with the facilities master planning. Mr. Budde shared context of the A&D value relative to the project cost, which is typically managed in a framework between six to 10 percent depending upon complexity. Trustee Thetford stated that Mr. Budde’s suggestion of providing additional information to put this in context of the overall project will be very helpful.

Trustee Barhorst referenced the expenditure for the additional signage and asked if there was no local vendor to bid on this. Mr. Budde stated that was correct. This group was used for the other electronic signage on campus and the software used was an important component of this project.
Trustee Lamb referenced the air handler replacements and asked if it costs that much to design an air handler replacement. Mr. Budde confirmed, stating that there are complexities when updating systems in an existing building. He added that this amount also includes the construction cost. He noted that this project has been done in stages throughout the campus and they are now replacing the systems in the AIT building. These systems provide greater efficiencies and ionizing capabilities have been added to the new systems. Further discussion ensued.

Chair Davis asked for a motion to approve the consent agenda. Trustee Thetford moved to approve the Consent Agenda including the Minutes of the Open Session and Closed Session of the Regular Monthly Meeting on March 17, 2022, and Monthly Bills for March 1 - 31, 2022. Trustee Byrd seconded the motion. Chair Davis asked for a roll call vote and the following Trustees responded "Aye": Kelly Daniels, Paula Davis, Cindy Byrd, Raena Holloway, Diane Lamb, Dr. Betty L. Barhorst, and Gale Thetford. "Nay": None. Absent: Carl Cannon. The motion passed.

President’s Report

Dr. Quirk-Bailey recognized Toni Walton, Student Reporter from the Harbinger newspaper, and shared that she is attending the meeting to provide a report to Student Life.

Report:

Dr. Quirk-Bailey provided several updates:

The Champion Team and Institutional Standards Committee have approved full implementation to scale for the Multiple Measures standard of using the 2.7 GPA as declaring someone college ready, bypassing testing and going straight into ICC’s programs. She provided background on this standard, noting this has removed a major barrier for students of poverty and students of color.

Treasurer’s Report

Mr. Budde provided an overview of the Treasurer’s Report, stating the favorable trend remains consistent as it has been throughout the year.

The revenue budget variance is now positive. The corporate property replacement tax has offset tuition/enrollment losses. The revenues are now forecasted to be higher than budgeted for this coming year.

The expenditure side is seeing many positive variances, most of which are driven from favorable variances in salaries due to timing of filling positions and benefits due to lower employee count. Health claim and benefits activity continues to trend lower than budgeted. Other variances are due to timing and will correct themselves throughout the year. Work is being done on the budget for the next fiscal year. The $3.7 million in HEERF dollars will no longer need to be leveraged to balance the budget. The College will have the ability to allocate those dollars in future years. He confirmed for Trustee Lamb that these dollars are in a restricted fund and there is no time table to use them. These funds have already been recognized and drawn down for lost revenues so it is now a resource of the College.

Trustee Barhorst moved to approve the Treasurer’s report as presented. Trustee Byrd seconded the motion. Chair Daniels asked for a roll call vote and the following Trustees responded “Aye”: Diane Lamb, Dr. Bettsey L. Barhorst, Gale Thetford, Kelly Daniels, Paula Davis, Cindy Byrd, and Cassie Keller. “Nay”: None. Absent: Carl Cannon. The motion passed.

Trustee Thetford stated it would be helpful to figure out some way to notate these entries during the course of the year or multi-years as to when and why their timelines are adjusted. She would like to better understand the objectives that are being extended or discontinued.
Dr. Quirk-Bailey noted there is a color code that does speak to that, but she will work to find a better way to highlight this. Further discussion ensued.

There were 3,186 students that were contacted by phone, text message, or email between December 1, 2021, and February 11, 2022, by Inside Track. Outcomes included:

- 1,246 students replied to one of the outreaches.
- Of those, 440 provided a non-start reason
- 29.6 percent expressed intent to re-enroll at ICC
- 48 percent of the intent population re-enrolled for spring of 2022
- The project re-enrolled 177 students in 1,206 credit hours. The average credit hours was 6.9.
- 177 students are receiving success coaching through Inside Track, which started on February 14 and will go until May 14.
- The average ICC student for the spring took 7.8 credit hours, so comparable to the group.
- Of the students that re-enrolled, 65 percent have a cumulative grade point average higher than a 2.1, which is good academic standing at the College.

Dr. Points reviewed the age demographics of the group as compared to the average ICC student demographic. She also reviewed race and age demographics of those that re-enrolled as compared to those that did not re-enroll.
Dr. Points reviewed the 13 top non-start reasons and provided additional details on the top four reasons.

Discussion ensued on this data. It was noted that the video presentation would be shared out with the Board.
