When a FA grade can be awarded in classes:
The student has been active through the midterm of the class then ceases to be active for the duration of the term. The FA grade factors into the GPA as a failing grade. To avoid the FA grade, students must officially withdraw prior to the deadline.

Note: Once final grades are posted, you may receive an email request from Financial Aid asking for the last date of activity for students who earn W, WF, or FA grades. Respond directly to the email to comply with the request.

A WARe
*Academic Warning Activity Reporting environment*

The AWARe roster is used to report never-attenders, non-activity and to place students on academic warning. The roster is also used to record the last date of activity for non-active students and students earning W, WF, or FA grades.

Approval deadlines for never-attender, non-activity, and academic warning are provided for EACH course on the AWARe roster. Deadlines are determined based on the start and end dates for a course and expire on the dates listed at 11:59 PM. Faculty receive automated, customized emails when the rosters are available, as well as automated, customized reminders four days and one day prior to the due date if the Never Attender or Non-activity roster is not complete.

Meeting the AWARe deadlines is extremely important. If you miss one of these deadlines for some reason, refer to the [Missed an AWARe Deadline?](#) guide for specific instructions.

To access the AWARe roster:
1) Click on **AWARe** in the Faculty Center
2) **Enter** or **lookup** (using the magnifying glass icon) the four-digit term number
3) Click **Search** to display a list of your current term's classes with links to the AWARe roster for

Never Attender, Non-activity, and Academic Warning are managed on the AWARe roster…

Never Attender/ Non-Activity

Never Attender: a student who appears on a class roster but has never physically attended an in-person class or actively participated in an online class

Non-Activity: a student who was active in a class in either an in-person or online class but ceased participating; a student who is dropped as non-active will receive a 'W' on his/her transcript, and the last date of activity will be requested

Check the AWARe roster for deadlines!

To report students as Never Attender/ Non-Activity by the deadline on the AWARe Roster:
1) Check the box in the Never Attended / Non-Activity column for each student to be reported as Never Attender or Non-Attender
2) Check the **Approve Never Attended / Non-Activity by Deadline** box—checking the box saves the roster; no additional saving is necessary

Students reported as Never Attender / Non-Activity will be withdrawn, usually within 24 business hours.

Last Date of Activity

If a student **withdraws** from a class or is assigned an **FA grade** on the final grade roster, you must **report Last Date of Activity on the AWARe roster**. You will receive an email at your @icc.edu address identifying the course for which the last date of activity must be reported.

How is Academic Activity defined?

Academic Activity can be defined as, but is not limited to:
- Engaging in a class where there is opportunity for direct interaction between instructor and students
- Submitting an academic assignment
- Taking an exam, interactive tutorial, or computer-assisted instruction
- Attending a study group assigned by the institution
- Participating in an online discussion about academic matters
- Initiating contact with a faculty member to ask a question about the academic subject studied in the course

Academic Activity *does not include* activities where a student may be present but not academically engaged, such as:
- Living in institutional housing
- Participating in the institution's meal plan
- Logging in to an online class without active participation
- Participating in academic counseling

Academic Warning

A student is placed on academic warning for excessive absences, failure to complete coursework, poor grades, poor basic skills in class, personal issues, class participation/engagement, or lack of basic skills in course content.

It is up to each individual instructor's discretion to determine why and when students are placed on Academic Warning. An instructor should describe in the course syllabus what constitutes Academic Warning for his or her course, as well as when warnings are made. Instructors should make every effort to work with a student to help him or her make improvements prior to being placed on Academic Warning.

To report Academic Warnings:
1) Access the AWARe Roster (see page 2)
2) Select a reason from the drop-down list in the **Academic Warning** column
3) Click Save

Warned students are mailed a letter listing the class, instructor's name, and warning reason for each unique warning. The letter describes support resources to help resolve the warning. Students with referrals are sent to an advisor for follow up. Additional contacts may be made with the student by success coaches or other staff. See details below regarding the referral process after an Academic Warning is made. If the Academic Warning is resolved, the faculty member should return to the AWARe roster to remove the warning.

After the deadline for entering academic warnings (77% of the course duration, which occurs during week 12 for a full 16-week course), warnings on the AWARe roster can be viewed but not edited.
