

Good evening,

We want to update all of you on our continued efforts to prepare for the impact the COVID-19 virus will have and share a couple of updates. We understand this is a time of many unknowns, please know we are following the county health department and CDC guidelines. Thank you for all of your efforts to follow these guidelines and encouraging others to do so as well.

We are currently working on plans for continuing classes in the event of the need to temporarily suspend in-person instruction this semester. A planning group is creating a comprehensive approach to continue both our courses and college operations if such an event occurs. We are also tracking the activities at other universities and colleges in the state.

As we continue preparing for this possibility, **please take a moment to verify the information in your [E-services](#) account is current and you have indicated your preferred mode of communication.** Once you log-in, you can edit your personal contact information, add a phone number or email and indicate which mode is the best way to reach you for any COVID-19 alerts or any other urgent messages.

ICC has made the difficult decision **to suspend all college sponsored/funded travel outside the state of Illinois until further notice.** The entire leadership team takes our responsibility for your safety seriously and we want to do all we can to lessen your risk.

Expect to see updates frequently as this extraordinary situation continues to unfold.

Thank you for your patience and support as we plan to address these health and safety concerns. Rest assured that every decision we are making is with your safety and success in mind.

All the best always,

Dr. Sheila Quirk-Bailey
President
ILLINOIS CENTRAL COLLEGE
